

## **BEAUTIFUL BULGARIA**

Bulgaria is a very popular sun holiday destination, Sunny Beach with a name that beautifully reflects its character is the most popular resort,

It is the largest resort on both the Bulgarian and Romanian Black Sea coastlines, and boasts all the amenities and facilities one would expect in such a world-class destination. From lazing on the 8km stretch of beach to choosing an action packed day, Sunny Beach has something to suit everybody's taste.

At the many bars, discotheques, cocktail bars and restaurants, you can enjoy a night out at a fraction of the price in similar resorts of Spain and France. And with numerous playgrounds, amusement parks, and aqua parks, the children won't be disappointed either.

Sunny Beach has a lively centre and a magnificent promenade. There are many shops, stalls and amusements selling all kinds of things whether it is souvenirs, clothing or something more precious like jewellery.

While in Bulgaria you should take the chance to try some shopping, water-sports or enjoy a cruise along the coastline or drive inland to the Balkan Mountains and visit traditional Bulgarian Villages.

The weather is warm from May to mid - October and you can expect approx 250 sunny days each year. Temperatures range from 18 degrees in May to 30 degrees in August, but unlike other destinations, Sunny Beach enjoys a refreshing breeze which makes it a very pleasant sun holiday destination.

The ancient town of Nessebar is located just minutes from the sandy beaches, and being an UNESCO World Heritage site, it boasts an abundance of National Revival Architecture buildings along its cobblestone streets and is well worth a visit.

Not only is Sunny Beach a family friendly resort, but it is also ideal for couples or singles.

Go ahead and take advantage of everything that Sunny Beach has to offer - long sunny days, nightlife, sports and a choice of leisure activities.
